

Task 3 reflective questions:

1. Are you providing written, clear feedback on student assignments that details what the students did good **and** what they can improve upon?
2. Do you explain precisely how you will help students use feedback to address the strengths and weaknesses you identified in question #1? If so, where do you do it? List specific examples from your documents.
3. Do you explain exactly how you will provide specific support in future lessons to improve (a) understanding of facts, (b) skills related to source analysis or interpretation, (c) or developing a thesis and supporting arguments? If so, where do you do it? List specific examples from your documents for each.
