DESIGN CONCEPT

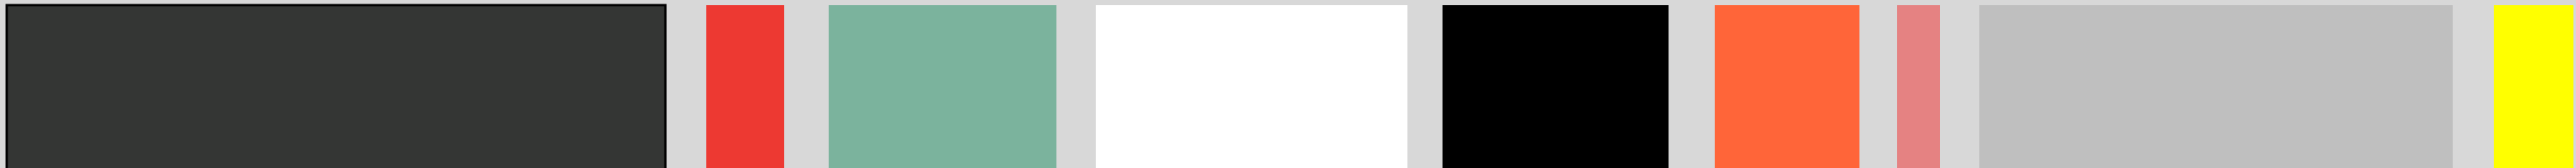

“SPRINKLES”

Inspired by the many facets of life, interests, and goals present with the development of the millennial campus, sprinkles represent the space between childlike imagination and the innovation of the professional world.

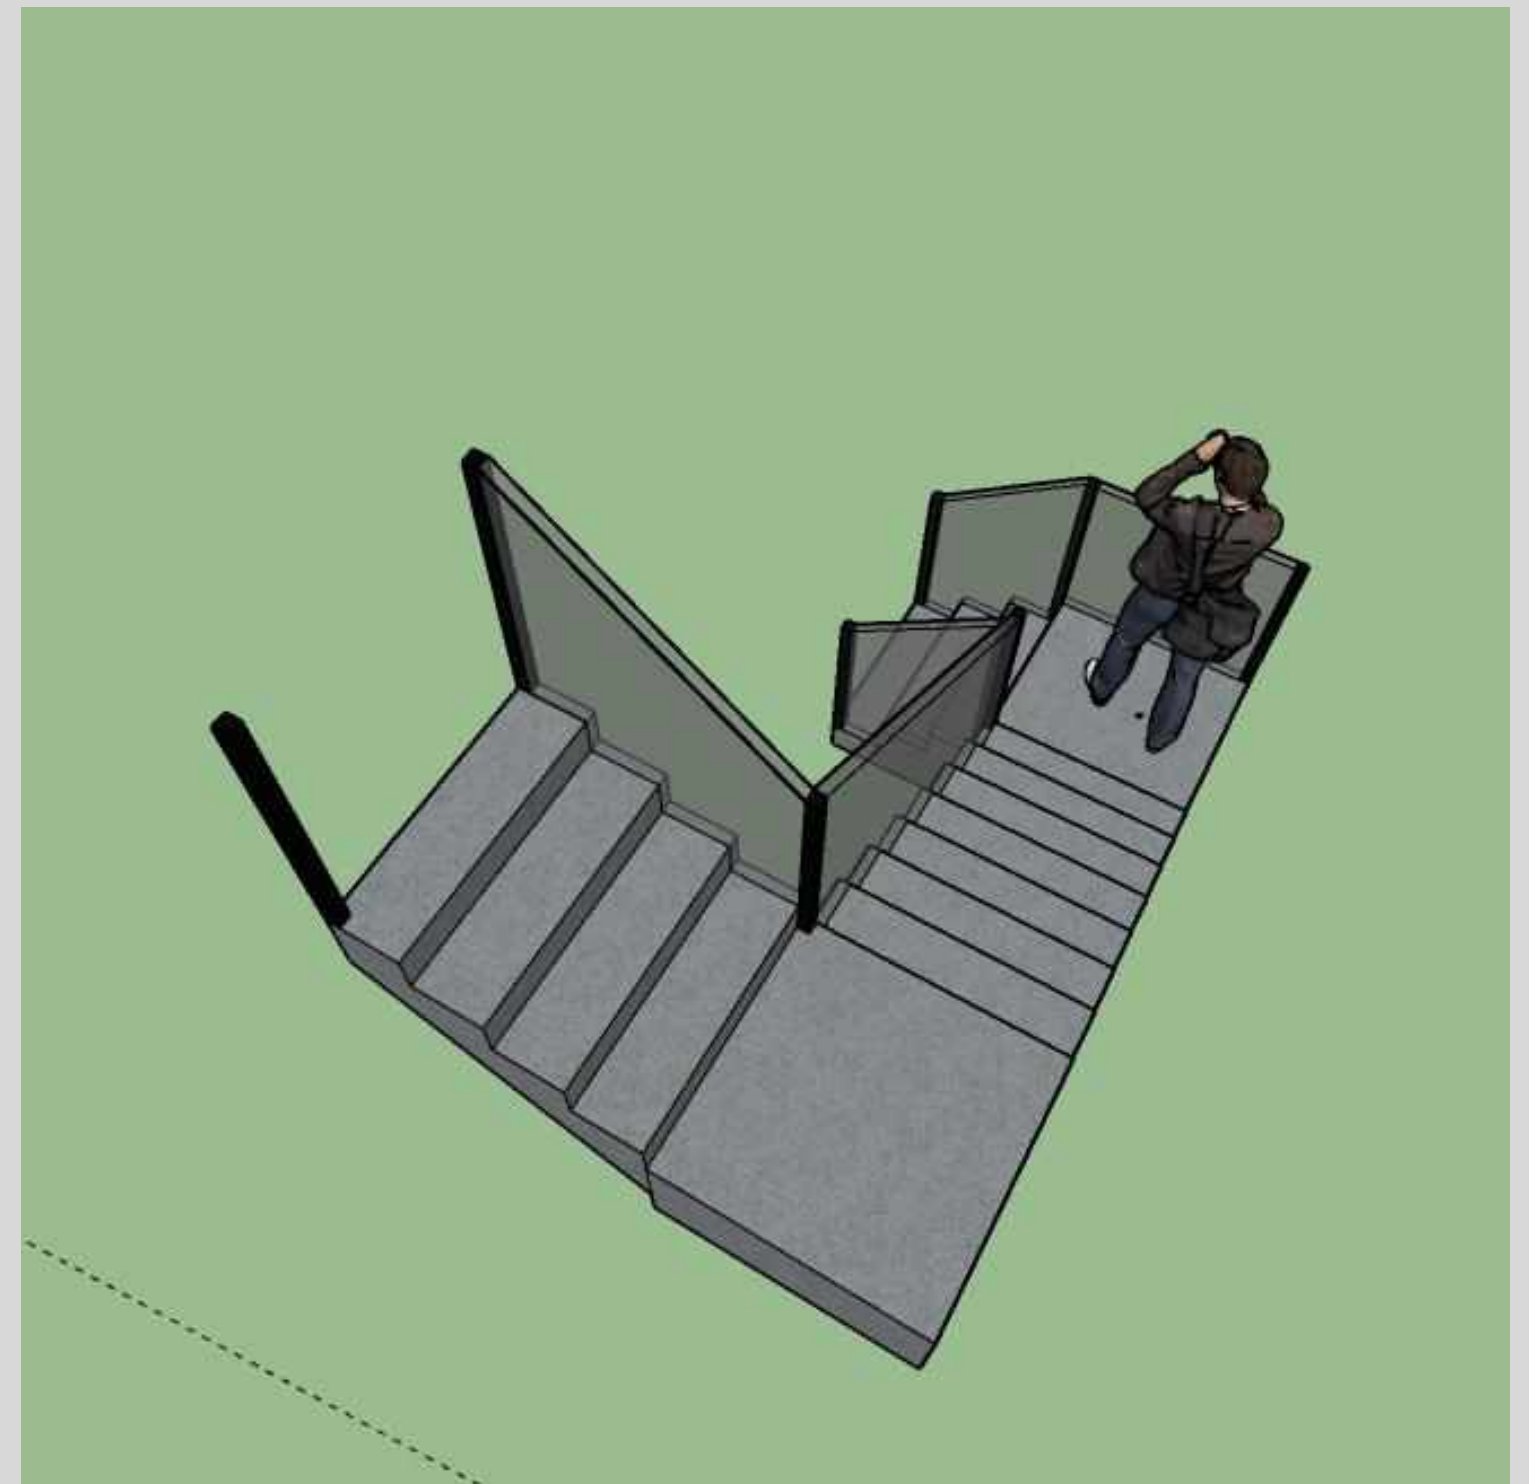

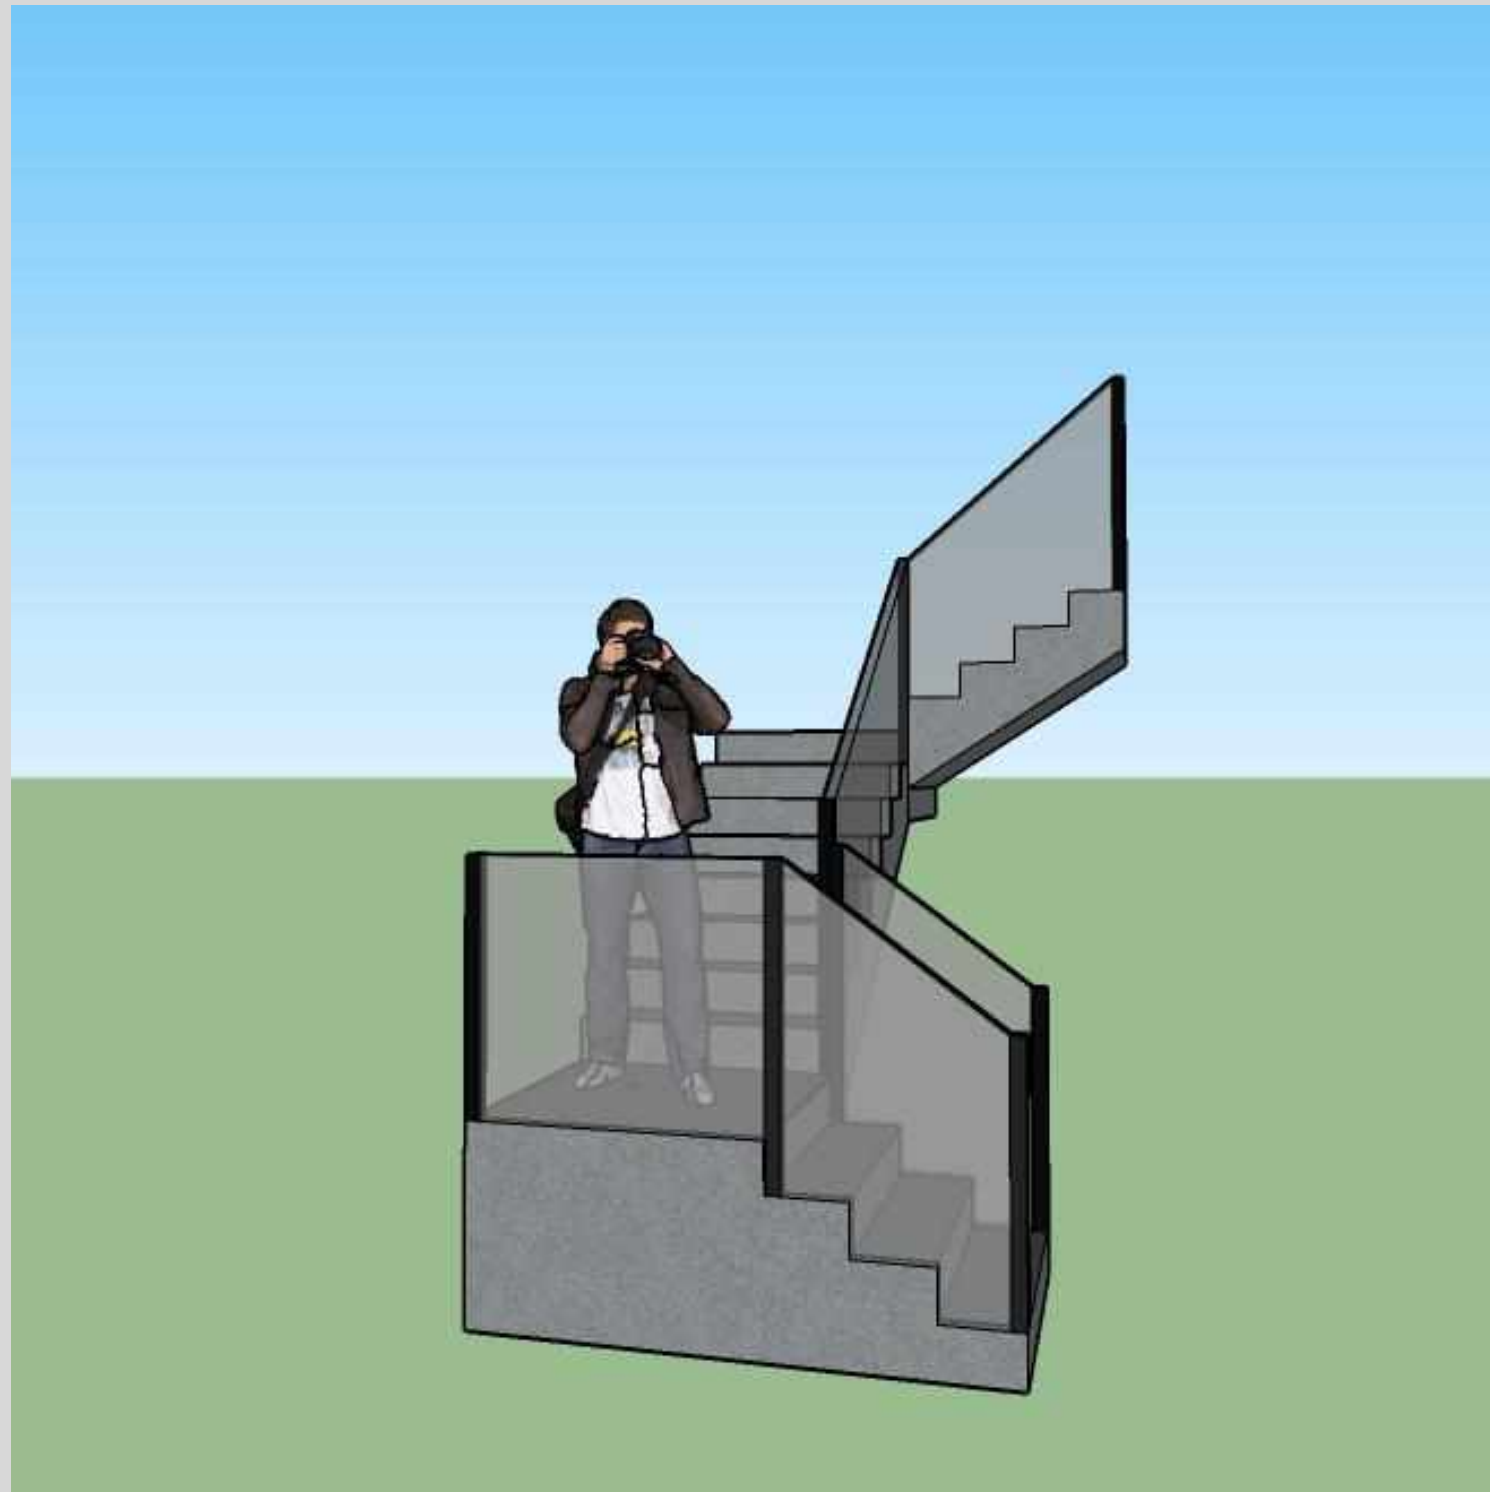

- ✓ The design reinforces this theme as a sprinkle of bright color is contrasted and repeated amongst its simpler backdrops.
- ✓ Elaborating on the name, STEAM, Art is the sprinkle of color holding a place of importance along with Science, Technology, Engineering, and Math.
- ✓ STEAM gallery, coffee house, and creamery serves as a multifunctional entertainment opportunity and a meeting place for all walks of life.
