

PORTFOLIO 3

DEANDRA GOODMAN
IDSN 3600: SYSTEMS
FALL 2015

CONCEPT STATEMENT

- The James River brings the beautifully untouched wilderness to the heart of the busy city with rocks, meadows, forests and rapids.
- Light stone and warm wood tones, as well as live foliage and water features, will transport members from the usual cramped and cold work environment

to a relaxing oasis where one can unwind and get work done productively.

- Just as the James River brings exquisite nature to the hustle and bustle of the city, one can expect the same escape from the stress of the work environment.

INSPIRATION

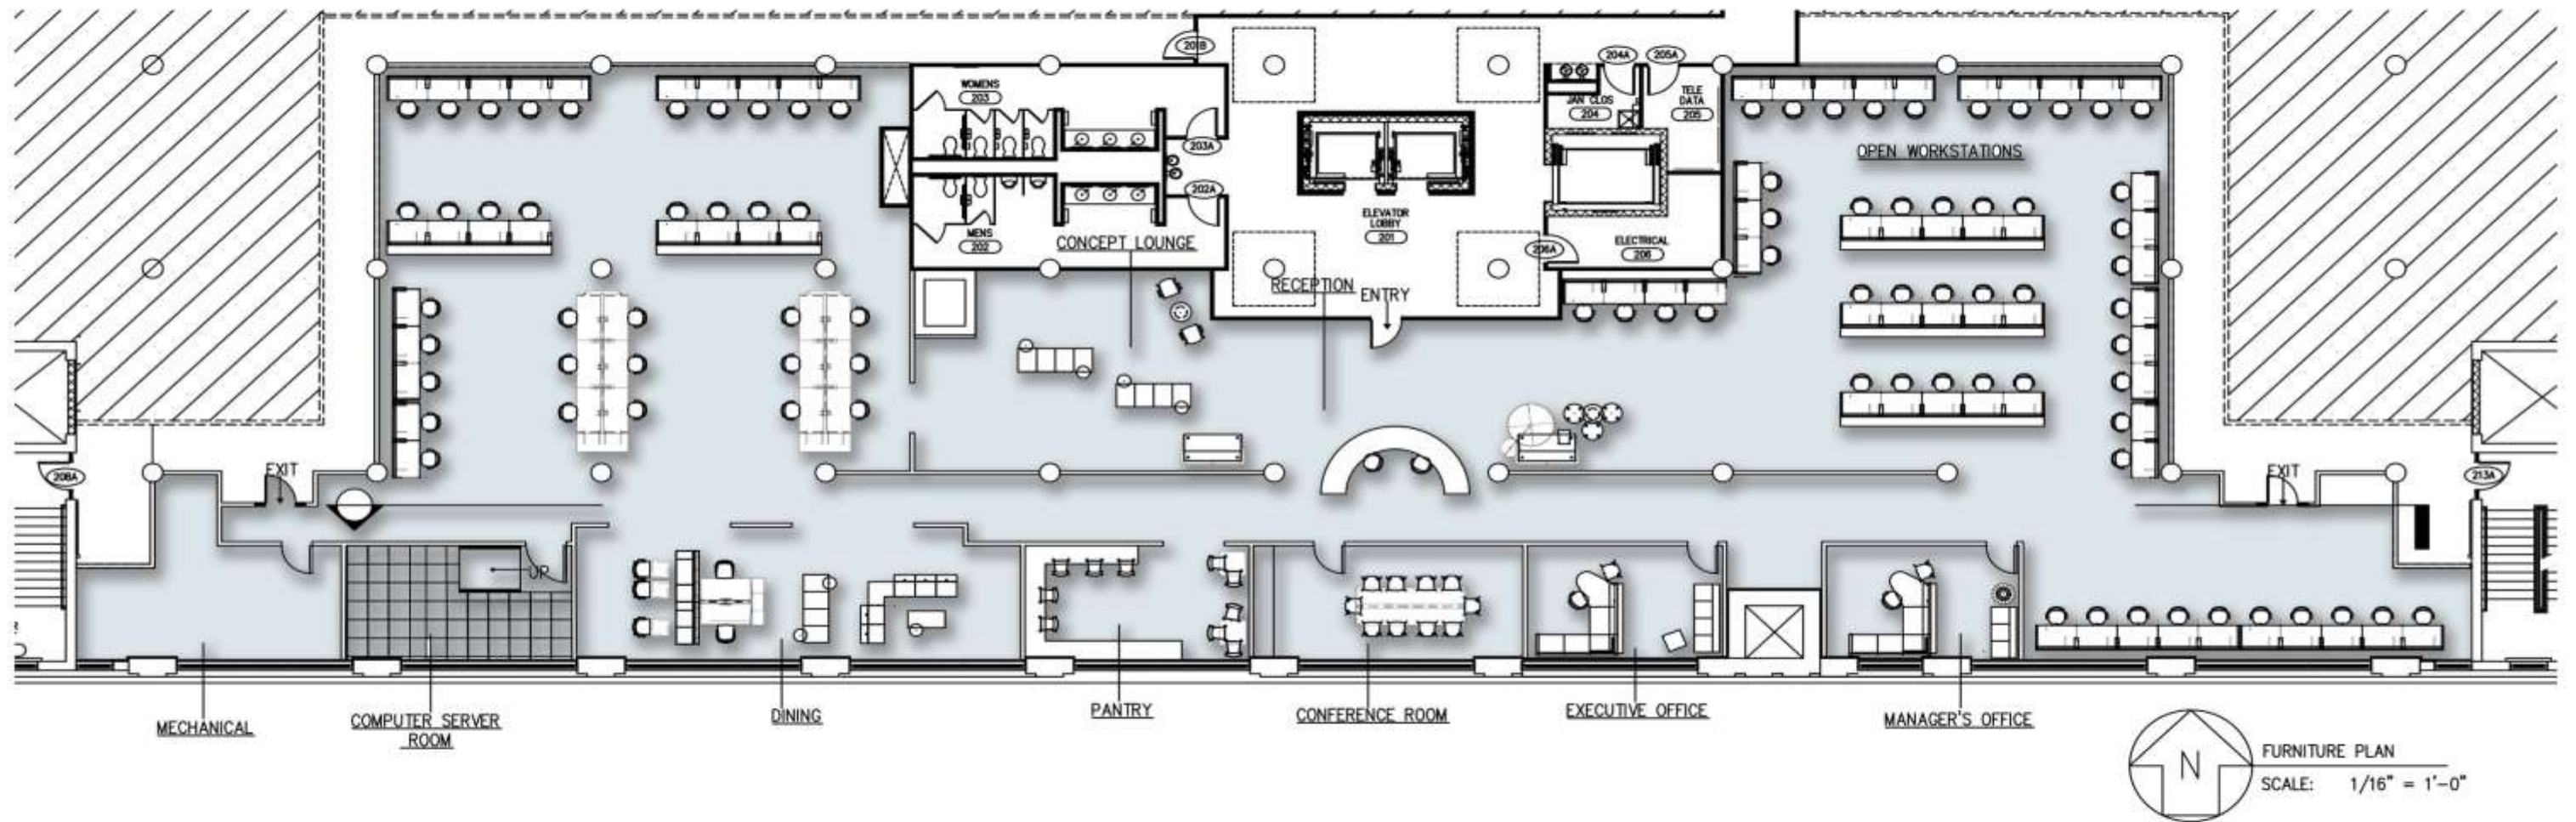

STATEMENT OF SUSTAINABLE STRATEGIES

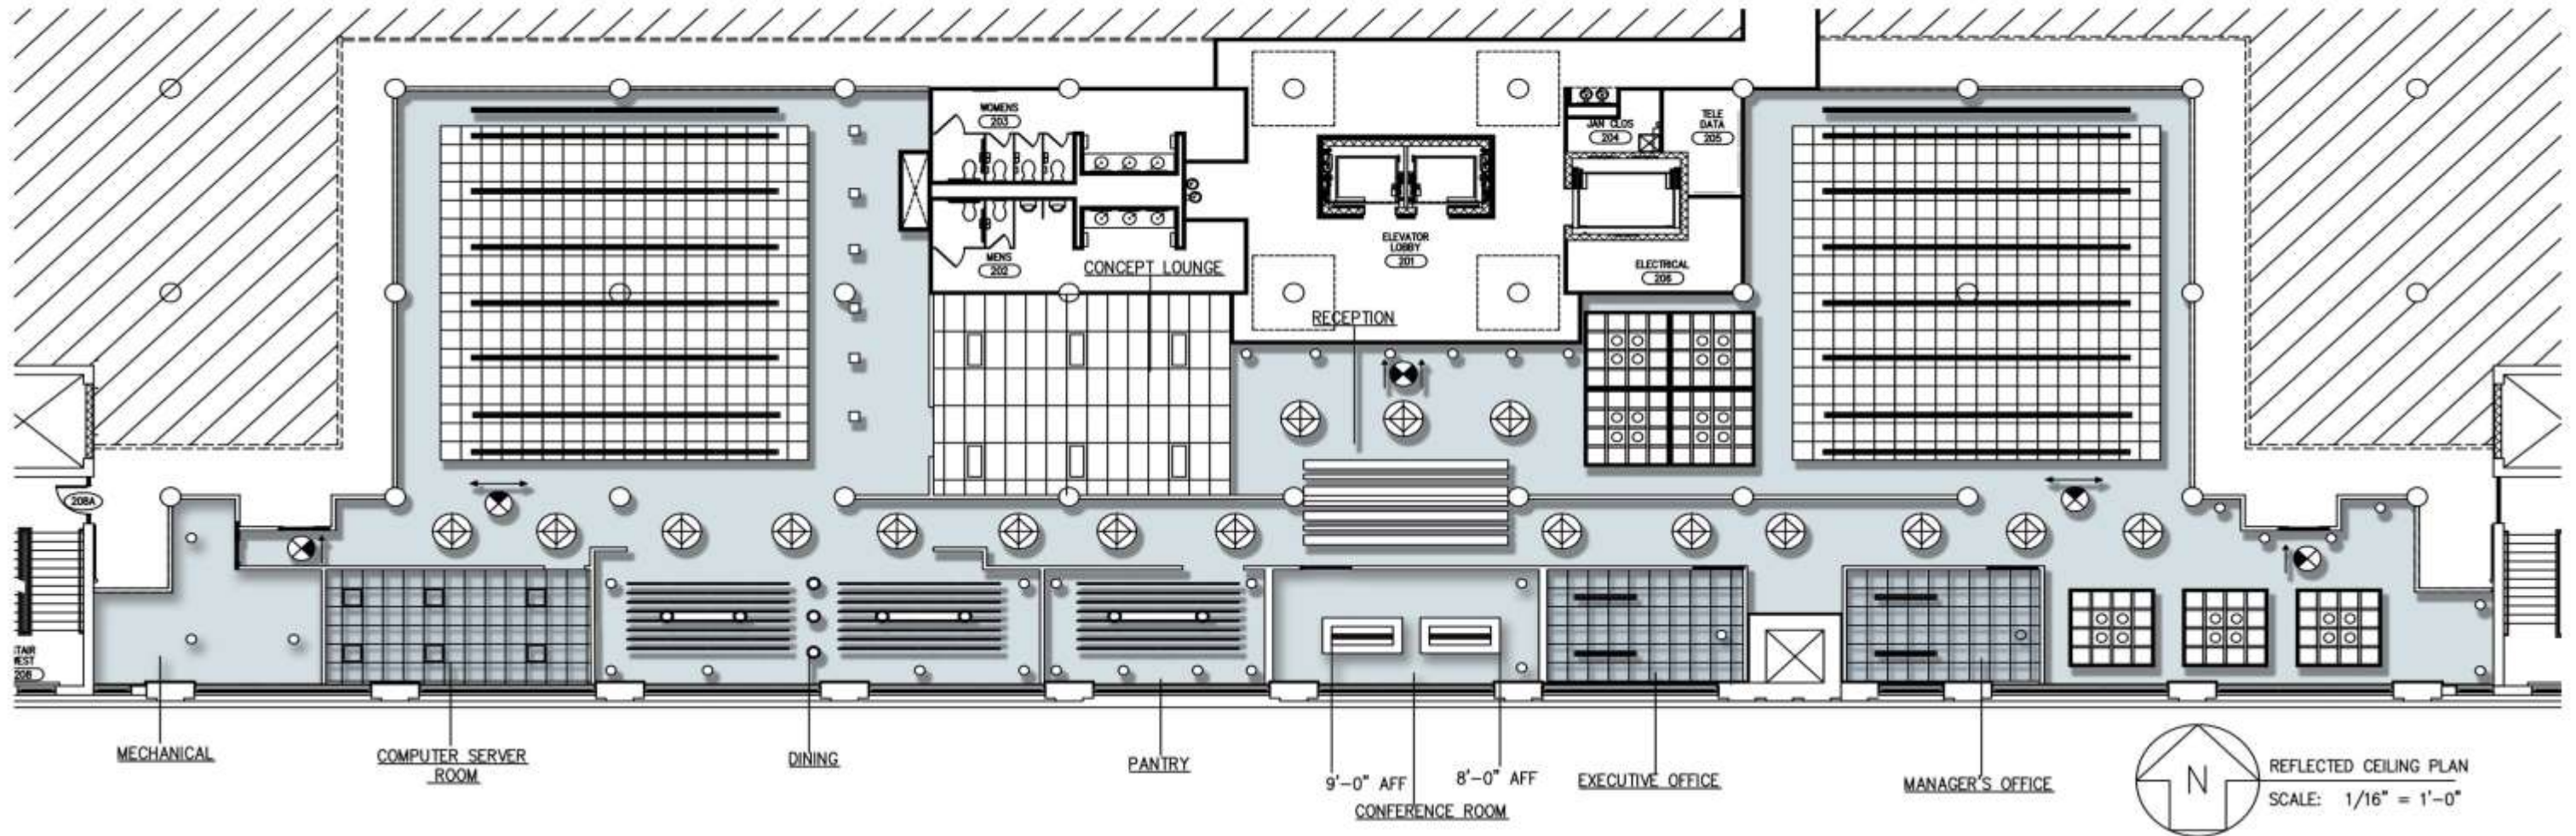

- Reuse of the existing building captures embodied energy.
- Bamboo ceilings, which use rapidly renewable material.
- Use of daylighting to augment artificial lighting.
- Use products made of recycled materials that can in turn be recycled when they are replaced.
- User operated black out shades that allow the control of sunlight reducing the transfer of heat and cold.
