Concept: Creative Adaptability

- Teknion @ The Quarter creates an environment that not only showcases Teknion's collaborative, sustainable furniture, but incorporates the spirit of Pirate Nation
- The use of adaptable workspaces illustrates Teknion's diverse furniture that can fit many different situations in the workforce
- This showroom allows a modern working environment that showcases Teknion's creative adaptability

Colors in Collaboration

- By adding touches of purple throughout the showroom not only incorporates the Pirate pride, but also adds a complimenting touch to the vibrant colors of Teknion's furniture
- The incorporation of neutrals creates a space that is dimensional without overpowering the furniture colors
- The warm wood tones allow a relaxing environment while contrasting with the neutral greys and plum to still contribute to a sophisticated environment
