COLOR RATIONALE

Since the showroom will be in a college town, we wanted a design that would draw in a variety of people. Using a vivid and neutral color palette and a mix between a rustic and modern design, the goal was to make an inviting and comforting atmosphere.

- White elements help brighten up the space.
- Red needs to be included considering it is Herman Miller's signature color.
- Wooden elements bring a rustic feel to the space.
- Blue promotes productivity and a calm feeling
- Orange and yellow draws attention to the space and promotes energy
- Grey stabilizes the space and is used to make the other colors pop.
