Client Identity

Why are they using this space?

· Central location, competitors are also in the building, show off their stuff/product What is their product?

· Furniture, mostly office/commercial, residential line is studio, high end products Who are competitors?

· Steelcase, Herman Millar, Kimball, Haworth, Teknion

work-sta-tion /'wərk_stāSH(ə)n/

noun

plural noun: workstations

- a desktop computer terminal, typically networked and more powerful than a personal computer.
- an area where work of a particular nature is carried out, such as a specific location on a manufacturing assembly line.

Timeline:

- 1904 Open office spaces for efficiency and overcrowded workspace. Designed for bosses in private offices to look down on.
- 1960 Spaces started to vary in position allowing for more interaction between workers.
- 1970 First modular furniture systems with low dividers. Also known as cubicles -everyone loves them!
- 1980 Cubicles caught on. Quick and easy way to create office spaces for workers.
- Present: Trying to leave cubicles for open concept again. Many variations of desk systems are made to comply with workers wants.

Knoll

- South Side to receive a significant amount throughout the day
- · Light well to receive most light around noon

Concept Statement

The Process of Progression

- Everything starts with an idea and progresses into something more.
- Knoll Design Showcase the images of the schematics, industrial designs, space planning designs, production images of Knoll products layouts, prototypes, inventions, etc.
- Designing rooms, furniture, and textiles all begin from schematics.
 Knoll products include collaboration, innovation, trial and error, and perseverance, we want to showcase that process. These rough design sketches evolve into iconic pieces of the Knoll brand.
- FilzFelt and Spinneybeck show the process of collaboration, making the felt, making the leather, the college group they partnered with, innovation of design with the panels - schematics, errors, failures, progress to the final project
- New Designers David Adjaye and David Rockwell, the failures, the schematics, how the designers began to work with Knoll development of the chairs and creative walls

Challenge Resolution Statement

Challenges

- Incorporating the 5 zones from Knoll and incorporating Knoll's past with the future.
- · Lack of sunlight throughout the space from the light well.
- · Acoustical issues from the city and the subway.
- Limitations due to slab to slab height

Resolutions

- Partnering classic designs with new innovative designs from various collaborations.
- Use FilzFelt to direct light and acoustics within the space.
