The Stakeholders

- ❖ The client is the developer, who is wanting to explore the viability of Aging in Place and Universal Design to attract retirees in Greenville.
- ❖ Client: Affluent retirees who are over 55 years of age.

What is Universal Design?

- ❖ Universal design is the concept of making a design that is accessible to people with all wide range of health issues, disabilities, and other characteristics.
- ❖ With a Universal design, it must be approached, reached, manipulated, and used regardless of the individual's body size, posture, or mobility.

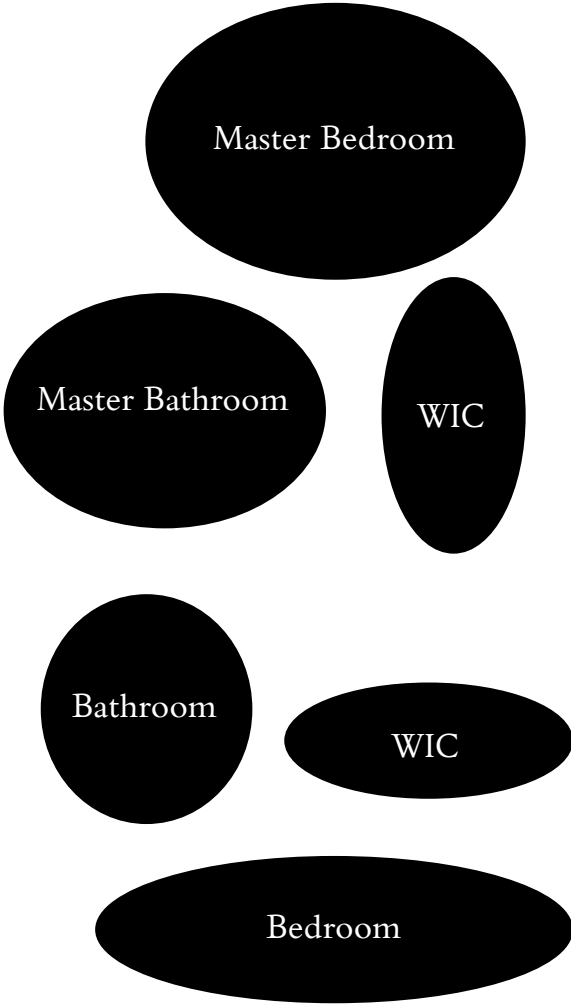

7 Principles of Universal Design

- ❖ Principle 1: Equitable Use
- ❖ Principle 2: Flexibility in Use
- ❖ Principle 3: Simple and Intuitive Use
- ❖ Principle 4: Perceptible Information
- ❖ Principle 5: Tolerance for Error
- ❖ Principle 6: Low Physical Effort
- ❖ Principle 7: Size and Space for Approach and Use

Concept & Inspiration

The concept of the design is universal fitness. Finding ways to make it easier to stay active and to stay in motion. Staying healthy and active is a necessity in order to live a long life, whether a person is disabled, aging, handicap, etc.
