

Sample for CSD/

## Speech Pathology SOAP Note EXAMPLE

**Date of Service:** 3/2/2012    **Client Name:** Suzy Client

**Duration of Service:** 50 min    **Service type:** TX

**ICD9:** 315.39 Articulation disorder

**Plan Dates:** 1/2/2013 – 6/2/2013

**S:** Suzy's mom reported that Suzy was tired today.

**O:** 1. Suzy will correctly produce /r/ in the initial position at the word level, given a model with 90% accuracy over two consecutive sessions- The clinician utilized traditional articulation therapy approach to elicit the targets by providing pictures and a model for each stimulus item. Items were presented in a game-based activity. Suzy was able to produce the target with 95% accuracy.

**A:** In the previous session, Suzy was able to produce the targets with 95% accuracy and has maintained her accuracy level over the last two sessions. This objective has been mastered.

**P:** Increase complexity of targets-move to phrase level. Continue to use game-based activities as motivation for drill practice.

**Caregiver Education:** Clinician demonstrated home practice sheets with parent.
